Re: Call for water by Colorado Users

Dear Chad:

This is to inform you that the Colorado users are placing a call for the water they are entitled to from the Pot Creek System. You are requested to release the Colorado entitlement to the Colorado users as soon as possible.

The USGS data indicates the Colorado entitlement from May 1, 1990 through July 4, 1990 is approximately 55 AF. The Colorado storage entitlement is 104.45 AF. We believe the Colorado entitlement for the 1990 water year is at least 159 AF.

Your assistance in this matter is appreciated.

Sincerely,

Edward W. Blank
